People on the Move

Open summer 2013

A new museum experience in Antwerp (Belgium)

About a legendary shipping company  
With the red star in the flag

About the city of Antwerp in and around the Belle Époque

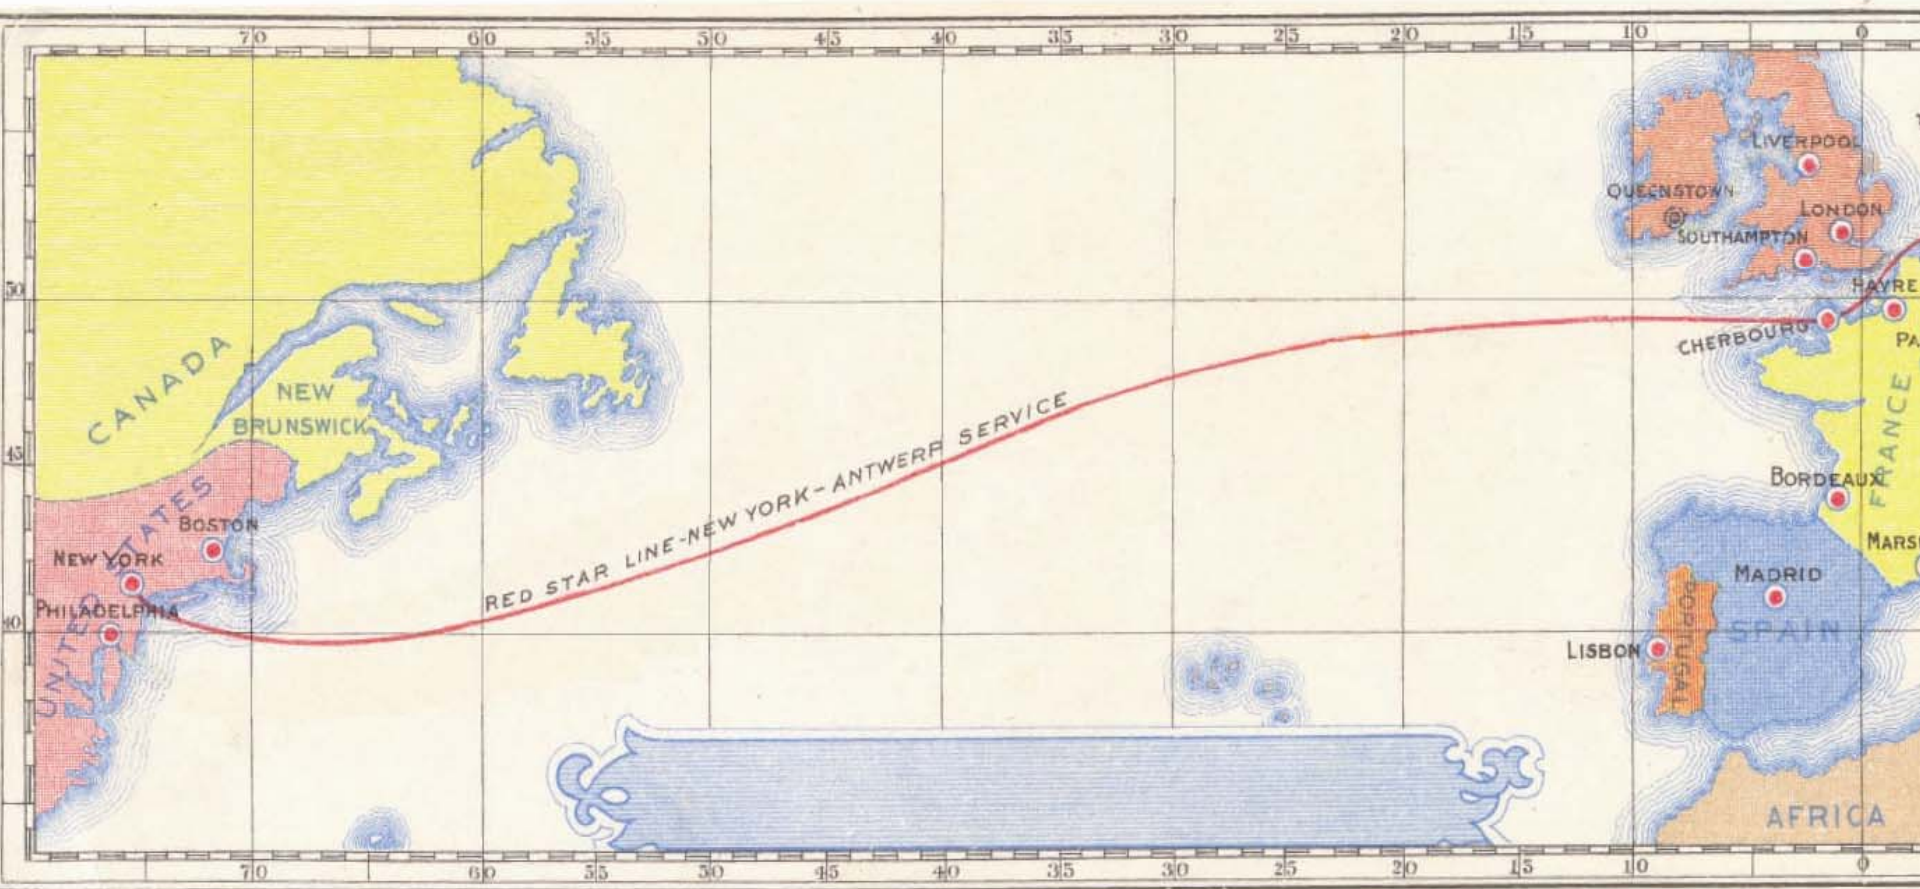

About her port and the river Scheldt

But most of all ... about the fears, the dreams and the pursuit of happiness of millions of people on the move

Between 1873 and 1934  
2,6 million passengers came from all over Europe to Antwerp  
to travel to the USA

Most of them came by train  
from Eastern Europe and Germany

They gathered at the Red Star Line buildings,  
in the old harbour

For medical inspection and disinfection of their luggage

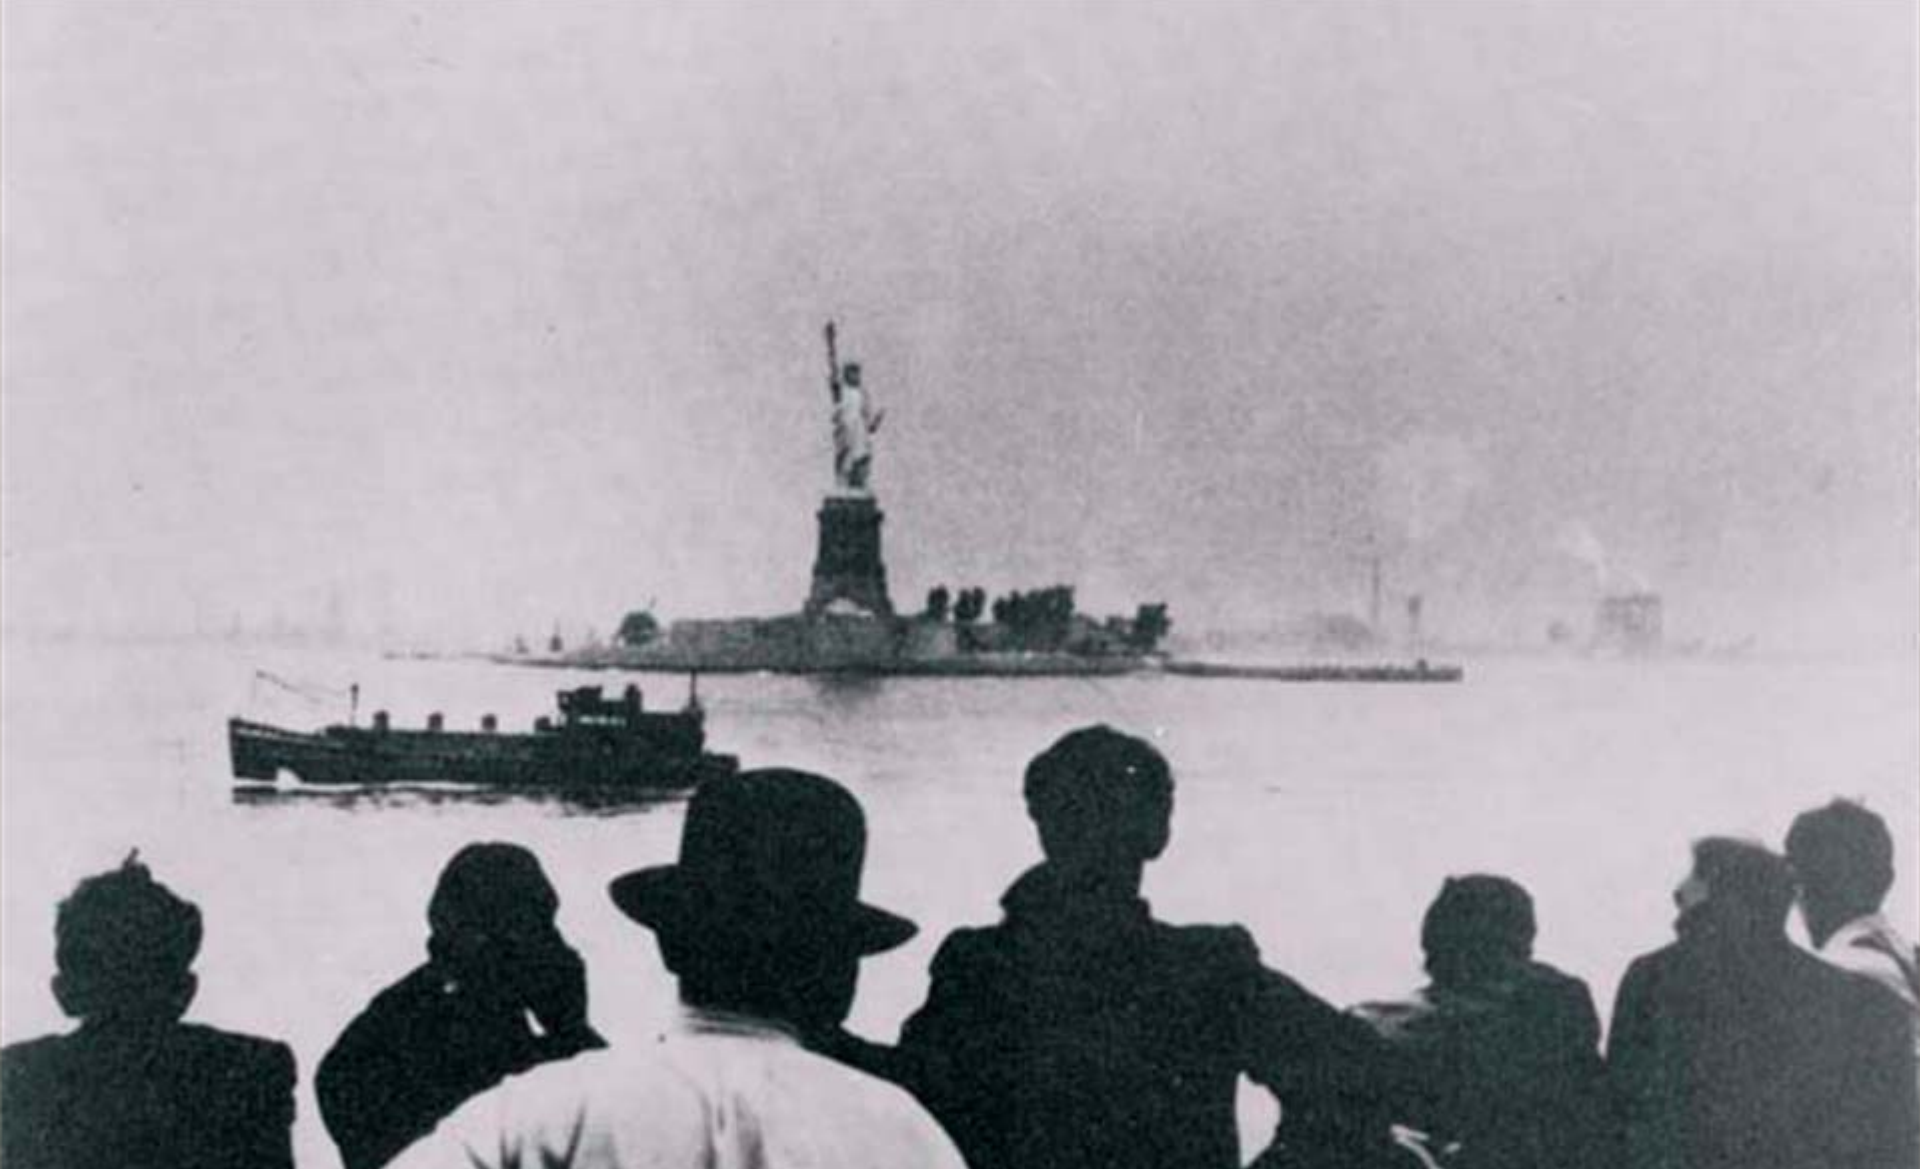

For embarkation to the new world and to a new life

The Belgenland II was the largest ship ever seen  
in Antwerp at that time

Immigrants new life started often at Ellis Island (New York)

ARRIVING AT ELLIS ISLAND

It is their story that will be told in the new  
Red Star Line Museum

In the old harbour, in the recently developed neighbourhood the “Eilandje”, nearby the MAS

On the authentic spot, in the original buildings

will open the Red Star Line Museum in 2013.

Full restoration of the original buildings
